

# The Project Way – Project Management at NWS

Working together to be at our best to make a difference.

## Introduction:

NWS deliver a significant number and variety of projects across the Trust at any one time. To allow for a practical and consistent approach to project delivery the Programme Management Office has developed a bespoke project management framework for NWS – The Project Way. This session will provide those new to project management with the tools and techniques to successfully deliver projects within NWS.

## Learning outcomes:

Brief overview of project management principles  
In-depth look at the project lifecycle within The Project Way Framework  
Overview of The Project Way pathways  
Overview of NWS project governance, assurance and reporting

## Who should attend?

Any staff members involved in the delivery or management of projects

## What you will need?

Openness and a willingness to learn and share experiences

A basic understanding of The Project Way Framework and associated tools available here - [Programme Management Office](#)

\*Pre-Requisite – Attendees must have completed the first two modules of the 000 NHS Project and Change Academy training available on ESR ('Getting Started: Projects and Change'; and 'Key Ingredients for Project Success')

## Booking information:

This course is currently available on a quarterly basis, Check dates and availability on ESR

## Course Lead:
